

Fertig, Los!

Sie ist
in mich verliebt

Fertig, Los! She's in love with me

It was too subtle to grasp
It was as obvious as the Hollywood strip
And your thought hung between cause
and meaning
Between illegible signs, I forget who I am
I don't know where to go yet
You have to show your feelings
Have to show them

She's in love with me
Even if no-one sees it
I realized
She's in love with me
She's in love with me
Even if no-one sees it
I realized
She's in love with me
She's in love with me
She's in love with me

And I'm in love with her
Some people are
sceptical

They'll never understand
And I hope she lets me
And a smile holds what a glance promises
Between illegible signs
Don't forget me
Don't forget me
You have to show your feelings
Have to show them

She's in love with me
Even if no-one sees it
I realized
She's in love with me
She's in love with me
Even if no-one sees it
I realized
She's in love with me

She's in love with me
She's in love with me
